Dear Parents and Patrons,

Our School District’s highest priority is providing a safe, secure environment for students and ensuring that we communicate regarding events that could be troubling. We value parent and student communications and consistently emphasize the importance of “See Something—Say Something”. Likewise, we encourage students to promptly report any uncomfortable or inappropriate conduct or behavior by adults (including school employees) or other students. Recently disturbing reports were received regarding an employee and these were investigated and, in the case of a high school student’s report—immediately referred to law enforcement. The employee resigned employment with the District effective October 21st and you can be assured that school officials will continue fully cooperating with law enforcement to ensure safety of students. We cannot release other details because of confidentiality safeguards involving the release of student information. We at Latta School will continue our emphasis on providing an excellent learning experience and safe learning environment for our students each and every day.

Sincerely,

Cliff Johnson
Superintendent
